

CLAIMS

1. An electronic search device for a book configured to attach to the book, to comprise information describing book's contents and to generate search results in response to a search query utilizing the information describing the book's contents and to display the search results.

2.The device of claim 1 wherein said search results comprise page numbers.

3.The device of claim 1 wherein said book is of Yellow Pages or White Pages type.

4.The device of claim 1 wherein said search results comprise quotations from book contents.

5.The device of claim 1 wherein said search results comprise contact information.

6.The device of claim 1 wherein said search results comprise driving directions.

7.The device of claim 1 wherein said search results comprise advertisements.

8.The device of claim 1 wherein the device is configured to be embedded into the book's cover.

9.The device of claim 1 wherein the device is configured to be attached to the book using means which allow detachment, and then reattachment.

10.The device of claim 1 wherein said book comprises maps.

11.The device of claim 1 wherein said book is a catalogue.

12.The device of claim 1 wherein said device is configured to store past search queries as bookmarks.

13.The device of claim 1 wherein said device is configured to store user notes related to book contents.

14.The device of claim 1 further comprising of an output device, an input device, a processor, a memory, a power source.

15.The device of claim 14 wherein said input device is a keyboard.

16.The device of claim 14 wherein said input device is a radio or infrared receiver.

17.The device of claim 14 wherein said output device is an electronic display.

18.The device of claim 14 wherein said output device is a radio or infrared transmitter.

19. The device of claim 14 wherein said power source is a battery.

20. The device of claim 14 wherein said power source is based on solar power.
